

SOLOMON WHITEPAPER VISION

Wisdom. Wealth. Purpose. Legacy.

Dated: 28 May 2026

Project Vision

SOLOMON is more than a Solana meme coin. It is a digital movement inspired by the wisdom, leadership, and legacy of King Solomon.

The project is built around a simple idea: blockchain culture can be used as a force for purpose, unity, education, and real-world impact.

Our long-term vision is to build a global crypto community focused on wisdom, wealth creation, transparent growth, and humanitarian outreach.

The SOLOMON ecosystem aims to combine viral internet culture with meaningful missions that bring awareness and support to vulnerable people around the world.

SOLOMON represents wisdom over fear, purpose over greed, and legacy over hype.

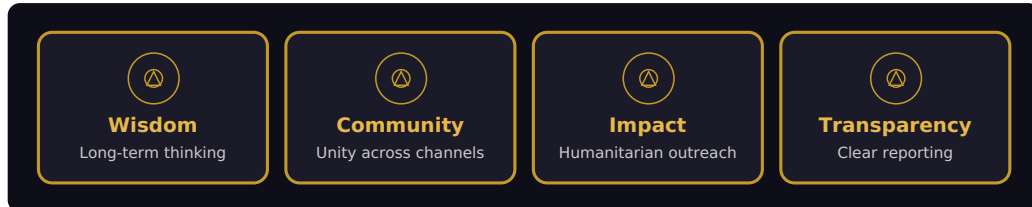

Mission Statement

Our mission is to create one of the strongest and most loyal communities in crypto while using the visibility of meme culture to support meaningful humanitarian causes.

A major pillar of the project is support for underground Christian communities in regions where believers face persecution, censorship, or restrictions for owning and reading the Bible.

The SOLOMON community seeks to provide awareness, support initiatives, and humanitarian assistance for struggling faith communities across regions including China, Iran, and Saudi Arabia.

Another core mission of SOLOMON is helping vulnerable and trafficked children through awareness campaigns, future charity partnerships, and community-led initiatives designed to provide hope, restoration, and support.
